SPRING PRICE LIST—Good Until June 1, 1950

We have the best varieties of Chinese Chestnuts in the U. S. The best grafted trees; note grafted trees. We also have the best strains of seedlings. And we have the new hardy, self-pollenating Broadview English (Persian) Walnut. Came from Russia the hardest English Walnut tree thus far grown in Eastern U. S. Order by packet #.

BLUEBERRIES: Blueberry King's Packet, well grown 12-18 inch plants, equal number of each variety in each packet. These are expensive new varieties and these prices are lower than the same plants at any other retailer known to me. And I know of no retailer who offers all three of them. They are too costly to produce.
